RE: FIFO Dump Truck Operator

Dear Hiring Manager,

I am writing to express my interest in the FIFO Dump Truck Operator position currently being recruited. With over eight years of ultra-class haul truck experience across both Pilbara iron ore and Bowen Basin coal operations, I bring proven production discipline, a complete LTI-free safety record, and immediate site mobilisation capability.

My most recent role with a Tier-1 iron ore producer has involved operating CAT 793F and Komatsu 830E haul trucks on a 2:1 day/night roster. I consistently maintain 18-22 cycles per shift on a 4.2km haul circuit and have built a reputation among supervisors for reliable shift handovers, clear two-way radio communication with dig crews, and proactive fault reporting that minimises unplanned downtime.

Beyond raw operating experience, I hold current site inductions across multiple Tier-1 producers, am qualified across CAT 793F, 789D and Komatsu 830E classes, and have mentored three new starters through their on-site VOC sign-off process. I am told my willingness to coach is one of the things that has kept me on long-term placements rather than rotating between contractors.

I am available for immediate start, comfortable on either day or night shift, and have a current HR licence, Standard 11, Senior First Aid, and all current site-specific safety qualifications listed in the position requirements.

I would welcome the opportunity to discuss how my track record of consistent production, zero recordable incidents, and willingness to support shift coverage can contribute to your operations.

Thank you for considering my application – I look forward to hearing from you.

Kind regards,

Daniel R.
